- (c) Recurrent ground training for crewmembers and dispatchers must consist of at least the following programmed hours unless reduced under \$121.405:
  - (1) For pilots and flight engineers—
- (i) Group I, reciprocating powered airplanes, 16 hours;
- (ii) Group I turbopropeller powered airplanes, 20 hours; and
  - (iii) Group II airplanes, 25 hours.
  - (2) For flight navigators—
- (i) Group I reciprocating powered airplanes, 12 hours;
- (ii) Group I turbopropeller powered airplanes, 16 hours; and
  - (iii) Group II airplanes, 16 hours.
  - (3) For flight attendants-
- (i) Group I reciprocating powered airplanes, 4 hours;
- (ii) Group I turbopropeller powered airplanes, 5 hours; and
  - (iii) Group II airplanes, 12 hours.
- (4) For aircraft dispatchers-
- (i) Group I reciprocating powered airplanes, 8 hours;
- (ii) Group I turbopropeller powered airplanes, 10 hours; and
- (iii) Group II airplanes, 20 hours.
- (d) Recurrent flight training for flight crewmembers must include at least the following:
- (1) For pilots, flight training in an approved simulator in maneuvers and procedures set forth in the certificate holder's approved low-altitude windshear flight training program and flight training in maneuvers and procedures set forth in appendix F to this part, or in a flight training program approved by the Administrator, except as follows—
- (i) The number of programmed inflight hours is not specified; and
- (ii) Satisfactory completion of a proficiency check may be substituted for recurrent flight training as permitted in §121.433(c).
- (2) For flight engineers, flight training as provided by §121.425(a) except as follows—
- (i) The specified number of inflight hours is not required; and
- (ii) The flight check, other than the preflight inspection, may be conducted in an airplane simulator or other training device. The preflight inspection may be conducted in an airplane, or by using an approved pictorial means that

- realistically portrays the location and detail or preflight inspection items and provides for the portrayal of abnormal conditions. Satisfactory completion of an approved line-oriented simulator training program may be substituted for the flight check.
- (3) For flight navigators, enough inflight training and an inflight check to insure competency with respect to operating procedures and navigation equipment to be used and familiarity with essential navigation information pertaining to the certificate holder's routes that require a flight navigator.

#### §121.429 Prohibited drugs.

- (a) Each certificate holder shall provide each employee performing a function listed in appendix I to this part and his or her supervisor with the training specified in that appendix.
- (b) No certificate holder may use any contractor to perform a function listed in appendix I to this part unless that contractor provides each of its employees performing that function for the certificate holder and his or her supervisor with the training specified in that appendix.

# Subpart O—Crewmember Qualifications

## § 121.431 Applicability.

- (a) This subpart:
- (1) Prescribes crewmember qualifications for all certificate holders except where otherwise specified. The qualification requirements of this subpart also apply to each certificate holder that conducts commuter operations under part 135 of this chapter with airplanes for which two pilots are required by the aircraft type certification rules of this chapter. The Administrator may authorize any other certificate holder that conducts operations under part 135 of this chapter to

## § 121.432

comply with the training and qualification requirements of this subpart instead of subparts E, G, and H of part 135 of this chapter, except that these certificate holders may choose to comply with the operating experience requirements of §135.344 of this chapter, instead of the requirements of §121.434; and

- (2) Permits training center personnel authorized under part 142 of this chapter who meet the requirements of §§121.411 through 121.414 to provide training, testing, and checking under contract or other arrangement to those persons subject to the requirements of this subpart.
- (b) For the purpose of this subpart, the airplane groups and terms and definitions prescribed in §121.400 and the following definitions apply:

Consolidation is the process by which a person through practice and practical experience increases proficiency in newly acquired knowledge and skills.

Line operating flight time is flight time performed in operations under this part.

*Operating cycle* is a complete flight segment consisting of a takeoff, climb, enroute portion, descent, and a landing.

[Doc. No. 10171, 36 FR 12284, June 30, 1971; as amended by Amdt. 121–250, 60 FR 65949, Dec. 20, 1995; Amdt. 121–248, 60 FR 20869, Apr. 27, 1995; Amdt. 121–250, 60 FR 65949, Dec. 20, 1995; Amdt. 121–259, 61 FR 34561, July 2, 1996; Amdt. 121–263, 62 FR 13791, Mar. 21, 1997]

# §121.432 General.

- (a) Except in the case of operating experience under §121.434, a pilot who serves as second in command of an operation that requires three or more pilots must be fully qualified to act as pilot in command of that operation.
- (b) No certificate holder may conduct a check or any training in operations under this part, except for the following checks and training required by this part or the certificate holder:
  - (1) Line checks for pilots.
- (2) Flight navigator training conducted under the supervision of a flight navigator flight instructor.
  - (3) Flight navigator flight checks.
- (4) Flight engineer checks (except for emergency procedures), if the person

being checked is qualified and current in accordance with §121.453(a).

(5) Flight attendant training and competence checks.

Except for pilot line checks and flight engineer flight checks, the person being trained or checked may not be used as a required crewmember.

- (c) For the purposes of this subpart the airplane groups prescribed in §121.400 apply.
- (d) For the purposes of this subpart the terms and definitions in §121.400 apply.

[Doc. No. 9509, 35 FR 95, Jan. 3, 1970, as amended by Amdt. 121-130, 41 FR 47229, Oct. 28 1976]

#### §121.433 Training required.

- (a) *Initial training.* No certificate holder may use any person nor may any person serve as a required crewmember on an airplane unless that person has satisfactorily completed, in a training program approved under subpart N of this part, initial ground and flight training for that type airplane and for the particular crewmember position, except as follows:
- (1) Crewmembers who have qualified and served as a crewmember on another type airplane of the same group may serve in the same crewmember capacity upon completion of transition training as provided in § 121.415.
- (2) Crewmembers who have qualified and served as second in command or flight engineer on a particular type airplane may serve as pilot in command or second in command, respectively, upon completion of upgrade training for that airplane as provided in § 121.415.
- (b) Differences training. No certificate holder may use any person nor may any person serve as a required crewmember on an airplane of a type for which differences training is included in the certificate holder's approved training program unless that person has satisfactorily completed, with respect to both the crewmember position and the particular variation of the airplane in which he serves, either initial or transition ground and flight training, or differences training, as provided in §121.415.
- (c) Recurrent training. (1) No certificate holder may use any person nor
